In the footsteps of the Incas

Exhilaration in the Peruvian Andes

Our multifaceted bike tour through Peru begins in the magnificent colonial city of Arequipa. We explore the impressive region of the Colca Canyon by mountain bike and cross the highlands. The Indian Andean people live here with their herds of alpacas and llamas. Colorful markets, the endless expanse of the Andean landscape and the deep blue Lake Titicaca are other highlights of this region. We enjoy the great trails and bike routes in the Cordillera Urubamba, lined with snow-capped peaks. After trekking to the colorful “Rainbow Mountain” (Montaña de Colores) Vinicunca we travel on to Cusco. We explore the former capital of the vast Inca Empire. Visiting the surrounding Inca sites – especially the mystical Machu Picchu – is the cultural highlight of this diverse mountain bike trip. Peru offers a great natural and cultural experience.

Arequipa is very lovely, offers good restaurants and small bars, as well as the “Museo del Pisco”, which is dedicated to Peru’s national drink of the same name. Day 4: Over the Patabamba Pass (4905 m)

In our escort bus we overcome the 2500 meters of altitude up to the Patabamba Pass. The higher we get, the sparser the vegetation becomes. At a good 4000 meters there are only a few shepherds with their herds of alpacas and llamas. The shy vicuñas also inhabit this area. The wool of the delicate animals is one of the most valuable natural fibers in the world. The air is getting thinner and we are glad that today's bike tour knows almost only one direction: down! Every ascent, no matter how short, has to be earned. But it's beautiful, getting greener and greener again. We dive into the Colca Canyon and follow its course, deeper and deeper.

When the thermals begin in the valley, the Andean condors soar with their wingspans of more than 3 meters and glide over the gorge, which is up to 2500 meters deep. They have lived here for over 60 million years and with a bit of luck we will marvel at them and their flying skills. We bike along the edge of the gorge and marvel at the spectacular landscape of the Colca Canyon.

Day 6: The Tomb Towers of Sillustani

The distance from the Colca Canyon to Lake Titicaca is considerable. It's a good thing we have the accompanying bus with us, which takes us over passes and wide plateaus to the starting point of today's bike tour. We cycle through the original hinterland, which has been cultivated since time immemorial. At Lago Umayo we visit the up to 12 meter high tomb towers of Sillustani. These date from the pre-Inca period and are partly a good thousand years old. The Colla people buried their kings in the monumental stone towers. Depending on the time available, we swing back on the bikes and approach Puno. The very authentic Peruvian city is located directly on Lake Titicaca (3812 m).

Day 7: Boat trip on Lake Titicaca

Early in the morning a boat takes us out onto Lake Titicaca. The largest freshwater lake in South America is around fifteen times the size of Lake Constance. The western part belongs to Peru, the eastern part to Bolivia. Our goal is the floating reed islands of the Uros Indians. The Uru use bundles of dried totora reeds to make reed boats and to build the floating islands and houses. Originally, the island settlements served for defense; in the event of a threat, the floating islands could be relocated. In the afternoon we stroll through the old town of Puno, where Peruvian folk groups with drums and panpipes are often on the move. You just have to like them, the charming and lovable Peruvians.

From here we bike mostly downhill and curve through a grandiose Andean valley, in which primeval giant bromeliads grow. These are up to 12 meters high and transform the valley into a fairytale landscape – uniquely beautiful! What follows is a wonderful bike ride through a gorge with bizarre rock formations.

Day 9: Colorful "Rainbow Mountain"

Today we overcome about 1000 meters of altitude by bus in a beautiful side valley. It is first lush green and then increasingly sparse. We get out on a small high plateau and lace up our hiking boots. Our destination for the day is the "Rainbow Mountain" (Montaña de Colores). It's an easy hike, but the air is thin and we manage our strength well. Depending on the summit, we crack a height of 5000 m! The view of the multicolored flank of the Sandberg makes you forget the effort. Let yourself be surprised for the design of the afternoon, we have some ideas...

Every year in June it is artfully braided from grass – a masterpiece of old handicraft tradition. Then we swing into the bike saddle and enjoy the varied tour with the mountain bikes. On narrow tar and gravel roads we bike along four lakes through a postcard landscape.

We follow the Urubamba River on a leisurely cycle path, partly directly on an old Inca trail.

It's getting warmer, wetter, greener and more tropical – a bike ride from the Andes into the jungle. The second part will be a bit more strenuous. We master a few meters of altitude, but here at just under 1000 meters, we just fly along.

From here a bus takes us up to the hidden terrace where the legacy of the Incas was built a good 570 years ago. The stone complex is unique and has a mystical effect. Machu Picchu is framed by the river in a horseshoe shape and placed between two prominent peaks. Under knowledgeable, local guidance, we learn a lot of background knowledge about the Inca culture. What is the best time of the year for this hike?

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: +51 943 081 066**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
