Day 5: Chaullay - Wiñaypoco - La Playa – Lucmabamba

The third day is dedicated to the region’s flora and its plantations. After descending to a dimmed forest and enjoying the diversity of species of orchids, bromeliads and many other plants, we will see coffee-,

cacao- and fruit- plantations. Moreover, we will have the pleasure to meet local families of Wiñaypoco (2650m/8694f), La Playa (2100m/6890f) and Lucmabamba (2000m/6561ft). Our campsite will be in Lucmabamba.

This afternoon you stay in contact with a local rural family from the forest in which you will have the opportunity to witness the cultivation and

processing of coffee.

Depending on the variety, it takes approximately 3 to 4 years for newly planted coffee trees to begin to bear fruit. The fruit, called the coffee cherry, turns a bright, deep red when it is ripe and ready to be harvested. Due to the botanical characteristics of the coffee tree and the fact that coffee is often grown in mountainous areas, widespread use of mechanical harvesters is not possible and the ripe coffee cherries are usually picked by hand, a labour-intensive and difficult process. We will show and explain to you the complete process from the tree to the cup of coffee. You will also have the opportunity to ask the locals your own questions about the process of cultivation.

Climate: warm during the day with mosquitoes Hiking time: 6 hours

Note: According to the group's wishes it is possible to change the itinerary a bit and visit the hot springs in Santa Teresa (1830m/6004f) this afternoon at an extra cost.

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return

together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
