

Lima Santa Cruz trek - Arequipa - Puno - Machu Picchu - Rainbow Mountain - Lima

Lima is the capital: of Peru located on the arid Pacific coast of the country. Although its colonial center is preserved, it is an overflowing metropolis and one of the largest cities in South America. The Larco Museum houses a collection of pre-Columbian art and the Museum of the Nation traces the history of the ancient civilizations of Peru. The Plaza de Armas and the 16th century cathedral are the core of the old center of Lima.

About the Santa Cruz Trek: The Santa Cruz trek is a popular 3 or 4 day trip with a backpack on the shoulder through the heart of the impressive Cordillera Blanca of Peru and most travelers use Huaraz, Peru as a place to establish their base.

The Colca Canyon: is located in the valley of a river in southern Peru and is famous for being one of the deepest in the world. It is a famous destination for hiking. It is a habitat of the giant Andean condor, which can be seen from viewpoints such as the Cruz del Cóndor. The canyon landscape encompasses a green valley and traditional remote villages with terraced agriculture that preceded the Incas. The Colca River is popular for rafting.

Uros floating islands occupy a small corner of the world's highest altitude navigable lake. It's fair to say that there is no other place like it on earth. The people of Uros are believed to be descended from the earliest inhabitants of Lake Titicaca.

The island of Taquile, on Lake Titicaca, belongs to the district of Amantaní, Puno, Peru and is located 45 km from the regional capital. It has an approximate population of 2,200 inhabitants. The main villa is at 3,950 meters above sea level and the highest point on the island reaches 4,050 meters above sea level.

Cusco is a city in the Peruvian: Andes that was the capital of the Inca Empire and is known for its archaeological remains and Spanish colonial architecture. The Plaza de Armas is the center of the ancient city, with galleries, carved wooden balconies and ruins of Inca walls. The convent of Santo Domingo, in baroque style, was built on the Temple of the Inca Sun (Qoricancha) and has archaeological remains of Inca stonework.

Machu Picchu: is an Inca citadel located in the heights of the Andes mountains in Peru, above the Urubamba river valley. It was built in the fifteenth century and then abandoned, and is famous for its sophisticated dry stone walls that combine huge blocks without the use of a mortar, fascinating buildings that relate to astronomical alignments and panoramic views. The exact use he had remains a mystery.

A journey could not be more varied. A journey into the natural wonder of Peru.

Shortly hereafter we see for the first time the impressive Machu Picchu on a mountain saddle further into the valley. Within 10 minutes we arrive to our lunch spot called Llactapata. Here we eat lunch while enjoying the views of Machu Picchu and the beautiful mountains. Then we walk the last part downhill and along the river to the Hydroelectric. This trail was used from pre-Inca times to get to Punta Unión, an imposing mountain; it will take about 2 hours. The majestic mountains of the Cordillera Blanca you can see today include Taulliraju and Huandoy, Huascarán, the Pucajircas, Artesonraju and many others. The farmers here raise small animals and some crops. At this elevation there are still flowers, and their colors brighten the landscape. From the village we climb to Portachuelo de Llanganuco Pass, 4650 meters, where you will have fantastic views of several mountains covered in snow. And with a bit of luck, we'll be able to see vicuñas! Day 12: Puno city - Tour to Uros Floating & Taquile - Lake Titicaca

The floating islands of UROS are located inside the bay of Lake Titicaca only 14 Km. (about 9 miles) away from the city (20 to 30 minutes of navigation time). The Uro people were simple fishermen and bird hunters and preferred to remain isolated from the more advanced civilizations. Their search for isolation may be one reason why they decided to live in mobile houses on the lake. When the Spanish chroniclers encountered the UROS by the end of the XVI century, the UROS people were still living on the lake in small reed-boats that they used as floating houses. Only in the early 60s, the Uros started to build small artificial islands with reeds for their homes. Nowadays, The Uro islanders are survivors and they strive for a better future for their children. The young “Uro” are beginning to receive a better education and it is likely that they will not return to live on the “floating island”. The days of this old community will most likely end with

the next generation. The island of Taquile, on Lake Titicaca, belongs to the district of Amantaní, Puno, Peru and is located 45 km from the regional capital. It has an approximate population of 2,200 inhabitants. The main villa is at 3,950 meters above sea level and the highest point on the island reaches 4,050 meters above sea level. Overnight at hotel.

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains,

well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best

season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. [Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
