Highlights of the Cordillera Blanca. The highest tropical mountain range in the world, the Cordillera Blanca is part of the spectacular Andes that form the spine of South America. A mecca for hikers and outdoor enthusiasts, the region boasts over 50 peaks that exceed 15,000 feet, 700 glaciers and 300 lakes.

Trekking to Laguna Churup: With private vehicle we head towards Pitec ,check point of Huscaran National Park; after we start our trek by ascending a zigzag trail to laguna ; we scramble small boulder; after short stop we reach laguna Churup; we relax, take plenty of photos and descent same route approx.2h to Pitec where our transport to huaraz awaits us.

Laguna Churup is located 20 km east from Huaraz on the way to Llupa and Pitec; one of the most beautiful and popular to visit. From Pitec you have to hike approx. 2-3h ( 3,5 km) to reach this turquoise lake. The trek to Lake Churup is very popular and close to Huaraz but is not so easy to evoke . For that reason leaving early is the best option. You can enjoy your own pace and rest when you need to; another option is camping on the shore of the lake when you have time and all necessary equipment.

# Travel Program

## Day 1: Huaraz (3100 m) - Privat transport to Pitec (3850 m) - Trekking Hike to Laguna Churup (4450 m)

The trail to Laguna Churup is one of the classic hikes of the Cordillera Blanca, challenging but a great acclimatization route. We drive to the village of Llupa, and from there begin our hike on an ancient Inca trail to Laguna (Lake) Churup. The trail gets narrow and steep, including a small section with fixed ropes. It's one of the most beautiful places in this varied mountain region. Churup Peak rises above the lake, a wild rocky mountain with glaciers and cliffs 5,400 meters above sea level. Here we can continue climbing and do a loop to the Churup summit trail before returning to the trailhead and back to Huaraz for the night.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well

ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

## Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

### Suggested FAQs

#### **What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?**

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. For calls or inquiries to this number: +51 943 081 066

#### **Will I need to bring any technical equipment of my own? Is it possible to rent equipment, and if so, what would be the approximate cost of that?**

In all our trekking or mountaineering trips we do not include personal equipment in our prices, so you have to have your own equipment: Personal equipment (such as boots, ice ax, crampons, harness, sleeping bag, mat, Goretex, etc. ) and also within each page of the trips that we sell is a small list so you can see it on

our website.

Our company can also rent the materials that you would need for your trip, see the list here on our website: <https://peru-expeditions.org/equipment-rental/> . For calls or inquiries to this number: +51 943 081 066

## **Are there any other special requirements such as permits/insurance/vaccines that I need to consider before the tour?**

Safe and effective vaccines are available that provide strong protection against serious illness, hospitalization and death from COVID-19. Billions of people have been vaccinated against COVID-19. Getting vaccinated is one of the most important things you can do to protect yourself against COVID-19, help end the pandemic and stop new variants emerging.

We also recommend having accident insurance, we always recommend. We are Partners –Global Rescue. If you have any other questions about the trip we can schedule a date for a calling via WhatsApp. For calls or inquiries to this number: +51 943 081 066

## **What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?**

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps. If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. For calls or inquiries to this number: +51 943 081 066

## **How far in advance should I start training and what kind of training do you suggest?**

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. For calls or inquiries to this number: +51 943 081 066

## **What is the average distance and altitude gain that we will hike each day?**

For calls or inquiries to this number: +51 943 081 066

If you wish to request more information, do not hesitate to contact us. For calls or inquiries to this number: +51 943 081 066

## **What is the best time of the year for this hike?**

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. For calls or inquiries to this number: +51 943 081 066

## **What happens in the event of bad weather?**

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. For calls or inquiries to this number: +51 943 081 066

## **Can I join a group?**

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .

For more information please contact us. For calls or inquiries to this number: +51 943 081 066
