TREKKING IN BOLIVIA – CLIMBING ONE OF THE MOST BEAUTIFUL MOUNTAINS IN THE WORLD – HUAYNA POTOSI 6088 m

Fabulous Bolivia – sometimes called the roof of South America, more deserves the title of throne due to the majestic mountains of the Cordillera Royal / Cordilera Real. The peaks rise at the foot of the highest navigable lake in the world – Titicaca.

It is here that the sun was born and the Inca culture was established. Bolivia is an amazing country with many adjectives beginning with ‘naj’: The highest capital, the largest salt pan, the most beautiful mountains.

All this, apart from the rarefied air, can lead to dizziness – but don’t worry. We will get to know Bolivia from its best side – pristine mountains and incredibly rich culture. After an acclimatization visit to the legendary Lake Titicaca, we will go on an unforgettable trekking leading through the Condoriri Massif, reminiscent of a flying condor, to the breathtaking Huayna Potosi.

The ascent of this six-thousander will be crowned by our trekking and the success will be sealed in La Paz – a city full of Indian culture, full of colorful market streets, but above all beautifully situated at the foot of the mighty Illimani massif.

We guarantee a number of fantastic landscapes that will not leave your memory for a long time. Today we invite you to magical Bolivia, with us you will get to know this country from the kitchen – safely, but adventurous!

Accommodation

Accommodation in atmospheric and unique high-standard hotels. While trekking in shelters and high-quality mountain tents. You haven't seen such starry nights yet!
Attention! We always avoid accommodation in low-standard places.

Remarks

Huayna Potosi's difficulties are similar to those of the culminating climb of Mont Blanc and all center on the day of the summit push. Besides, on the only day during the entire trip, there are no technical difficulties. This is NOT trekking for adventurers! You don't have to climb, you just need to learn the basics of moving on the glacier during the expedition. During the summit push on Huayna Potosi we will use the services of local guides.
Bolivia is one of the highest countries in the world – the airport in El Alto (part of La Paz) is at an altitude of 3700m. We're not likely to get out of breath. Meals in cities are breakfast and dinner – 2 meals. During the trekking, full board: breakfast, lunch and dinner prepared by the expedition's cooks.

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our

passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
