Day 2: Experience La Paz: Markets, Traditions, and Music

Dive deeper into the vibrant culture of La Paz, where colonial charm meets indigenous traditions. Begin the day with a guided city tour that takes you through the lively streets of the Old City, filled with colourful markets, narrow alleys, and locals dressed in traditional attire. These sights offer an authentic glimpse into Bolivia's cultural heart.

Explore the mystical Witch Market, where stalls overflow with healing herbs, ritualistic amulets, and offerings used in Andean spiritual practices. From Copacabana, continue your adventure with a boat ride to Isla del Sol, a sacred site central to Inca mythology. [What is the guide-to-client ratio to climb this mountain?](#)

In mountains above 5000 meters: A local guide takes a maximum of 3 clients = Ratio 3pax = 1 local guide

In technical mountains: In large-big mountains we manage the travel policy, a guide and a maximum of 2 clients = Ratio 3pax = 1 local guide. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Do I have what it takes to succeed on this expedition?](#)

In the interest of the team's enjoyment and success, we work with every single guest to ensure they are properly prepared and ready for this expedition. We pride ourselves on vetting every member to make sure that the team can bond and succeed together. It really sucks to be grouped with members that are much faster, or much slower, than you are. No one wants to be the weakest link on a trip like this. By setting expectations and a solid training plan, we work to insure maximum cohesive success. Use this trip as an exercise motivator, and we will succeed together with style.

[What is the best time of the year for this hike?](#)

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
