

# Brazil: Rio de Janeiro & Iguazu Falls

## Rio de Janeiro:

The inhabitants of Rio de Janeiro call it the “Marvelous City.” Located on the Bay of Guanabara, Rio has a mountainous landscape that contrasts with an intensely blue sea. Here the skyscrapers, colonial buildings and narrow streets meld in perfect harmony. Although the city is a reflection of the social inequalities of the country, Rio de Janeiro has great style and is internationally renowned for its Christ Corcovado, Pão de Açúcar, Ipanema and Copacabana beaches, Carnivals and the warm and lively inhabitants of the city, the cariocas.

## Iguazu Falls:

Iguazu River wriggles in a western direction for 600 km, picking up along its way the waters of dozens of tributaries. The river widens and flows majestically through forests before descending into the various levels of the famous Iguazu waterfalls. They consist of 275 waterfalls that occupy an area more than 3 km wide and 80 m tall. They are wider than Victoria Falls, taller than Niagara Falls and more beautiful than both. There are neither words nor photographs that can properly describe them, you simply have to see and hear them for yourself.

## **Day 5: Iguazu Falls**

Argentinean Falls + SIB Gran Aventura Speedboat Tour – 8h:

After breakfast we visit the Iguazu Falls on the Argentinean side. Recognized among the seven natural wonders of the world, the Iguazu Falls are the most visited natural attraction in the province of Misiones and one of the most impressive of Argentina and the world. Walking paths with different gateways offered by the Park may have a different view of the falls' amazing scenery. The lower circuit allows more contact with nature, while the upper circuit gives an overview of all the jumps and the delta islands, and the impressive view of the Garganta del Diablo, where we feel the fury of water falling in many horseshoe shaped falls.

Still in the Argentinean side, we'll combine the essence of the Iguazu National Park: jungle and falls in a single ride. We enter the jungle through the Yacaratiá narrow track in units designed for this particular environment, where the natural and cultural richness will be presented along the way. This 5km car ride ends at the forest base Puerto Macuco. Going 100m down we arrive at the dock where we will meet the boats that lead us 6km through the canyon of the lower Iguazu river towards the waterfalls while enjoying the rapids. We'll go to the base of Salto Tres Mosqueteros to see the set of Brazilian and Argentine falls, with the Garganta do Diabo crowning the canyon's view. Then we will reach the peak of emotion when facing the incomparable Salto San Martín, second on the scale and the largest approachable jump by boat. Finally, we land at the dock located in front of San Martin Island, where we will return to the runway system, through the Lower Circuit.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

### Suggested FAQs

**[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)**

**For our mountain climbing trips:** If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

**Regarding the preparation of children:** Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

**Regarding older people:** It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

**What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?**

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps. If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

**How far in advance should I start training and what kind of training do you suggest?**

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

**What is the average distance and altitude gain that we will hike each day?**

Every day we have active walks around approximately 4, to 5 sometimes 6 hours of walking, everything is according to your pace and physical condition of each person, in each of our travel programs you will find more detailed information, and if you need more information about each day of the travel program, we can schedule a call via WhatsApp to clarify your doubts or questions, for this please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

**In our trips, either hiking or mountaineering:** Depending on the type or destination of the trip that you are going to book, in some parts of the treks you go with mules or donkeys or sometimes with horses, and within the mountain trips, the approach camps are also. They go with mules or donkeys, but there are

some stretches where pack animals can no longer reach. In this part, our logistics is fully supported by the porters.

**Who are the porters?** They are people from the area who were born and live in the heights of the towns, they are very strong and are very acclimatized, the reason is that after the tourist season ends they dedicate themselves to agriculture and livestock for that reason they are people They are used to the altitude and have lived in nature all their lives and they are happy to be in the mountains together with our expeditions. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### **What is the best time of the year for this hike?**

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### **What happens in the event of bad weather?**

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### **Can I join a group?**

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

**Why go in a private trip:** For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would

already be private .
