

Chile: Lulllaillaco Volcano and Ojos del Salado

The destination of the expedition are the two technically easy parade mountains Ojos del Salado, 6893 m, and Lulllaillaco, 6723 m, which rise into the blue sky of the Andes on the border between the Argentine Puna (Quechua for "high land") and the Chilean Atacama desert. While the "Ojos" after the Aconcagua is the second highest peak in South America, thus a second seven summit and at the same time the highest volcano on earth, the Lulllaillaco as the second highest volcano is culturally extremely important. Already 500 years ago the summit area of the Lulllaillaco served the Incas as a place of ceremonies and sacrifices. In 1958 the well-known Austrian mountaineer Matthias Rebitsch discovered ruins in the summit area and undertook the first excavations. Then, in March 1999, American archaeologists uncovered three child mummies and numerous grave goods, which can be seen today in the museum in Salta. Introductory tours to three five-thousanders enable very good altitude adjustment, the glacier-free normal routes on all mountains do not pose any particular technical difficulties. Another advantage: Since both six-thousanders are climbed via the (little frequented) Argentine east side, the sun warms up pleasantly early on Morning. An expedition trip for mountaineers who want to reach great heights on technically easy, glacier-free climbs. The beautiful, largely unknown high mountain landscape in north-west Argentina will fascinate you. The Lulllaillaco has a lot of history. Remains of the installations in the summit area, rock walls, wooden remains of the protective roof and the place of sacrifice can still be seen. Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

[How can I get to the trailhead/meeting point?](#)

For the pick-ups of each trip, depending on the place or the trip that you are going to make with us, the meeting point is always at our office, in one of our trips we pick you up where you are staying or staying, or in some cases a representative of our company will pick you up and then ship you to your transport to continue with your destination of the tour or trip you have booked with us. If you wish to request more information, do not hesitate to contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[What is the best time of the year for this hike?](#)

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: [+51 943 081 066](#)**

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
