

Chile: Multiple Volcanoes and Ojos de Salado volcano

The Ojos Del Salado volcano is the highest summit across Chile, the second summit in America, and it is also the tallest active volcano in the world. That's why this is one of the most desired challenges among mountaineers around the world. Ojos Del Salado is almost as tall as Mt. Aconcagua which surpasses it by 60mts. The volcano is located in the borderline between Chile and Argentina, in the Chilean Atacama region, one of the most active mining regions in the country. Inside the Nevado de Tres Cruces National Park we can spot the Negro Francisco Lake and the Maricunga salt-flat which serves as refuge to three flamingo species. The closest city is Copiapó, where we can find everything we need to start our climbing upwards Ojos Del Salado.

Weather

Ojos del Salado is a high desert area and its temperatures oscillate abruptly from daytime to night-time, reaching temperatures as low as -20°C (-4°F). So, if you want to try this one, you've better got some good technical clothing and equipment up to the requirements.

Valle Chico: An oasis in mid Atacama desert. It is located at 3,040masl and is the perfect place to start the expedition and the acclimatization process.

Laguna Santa Rosa: This one is located at 3,170masl, and 154Km from Copiapó. Near the lake the terrain is quite hard in some places and very muddy in others. This is an important place in the park in which you can spot fox, flamingos, guanacos and vicuñas.

Laguna del Negro Francisco: This one is also within Parque Nevado de Tres Cruces. It is a bit far from the other camp sites, but it's worthy. It is also good for trekking acclimatization. There is a refuge there provided with some basic amenities.

Laguna Verde: At 4,340masl this is quite the proper place to set up the base camp, because there are wide open places to camp and stone-refuges (pircas) which are very helpful to endure wind-storms. Plus, the hot-springs in the area are amazing.

Refugio Atacama: At 5,260masl. We usually send the 4WD with our equipment and heavy cargo to the shelter and we walk a remaining two hours road.

Refugio Tejos: This shelter is located at 5,837masl provided with bunk-beds to spend the night comfortably.

Summit: To access the small crown of Ojos del Salado we have to go across some interesting places. One of them is a 100 meters snowfield with a 35° slope. Another important one is the last one, a 30 meters rock climbing (fixed rope (5.6)) at 6,860masl.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

Are there any other special requirements such as permits/insurance/vaccines that I need to consider before the tour?

Safe and effective vaccines are available that provide strong protection against serious illness, hospitalization and death from COVID-19. Billions of people have been vaccinated against COVID-19. What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What is the best time of the year for this hike?

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would

already be private .
