Chile: San Pedro de Atacama Lascar and Llullaillaco Volcano

The momies of Llullaillaco

In 1998 National Geographic organized and financed an expedition to Volcano Llullaillaco, the result, in 1999 were unearthed 3 dead bodies (Llullaillaco Children), a 6 year old girl (girl of the ray), a 7 years and a 15 year old girl (the maid), on the place were also found 46 animal figures, human and food. This finding more others who had done before, like a cemetery at the base of Llullaillaco makes this volcano the highest archaeological site in the world.

The Llullaillaco volcano is considered the second highest volcano in the world (6739m) after Ojos del Salado (6893), is also the third highest peak in Chile and clearly a challenge. We cross the driest desert in the world (Atacama). It is an itinerary that allowed acclimating to places rarely visited the Lascar volcano climb 5600m, visit the Tatio Geyser, went along unique canyons; it is certainly a nice challenge that calls to be explored.

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .

Local currency is exchanged on site. You can change both dollars and euros, the two currencies are the most used. We recommend taking bills of different denominations.

ATMs are available in the larger cities. Attention! We avoid dollars from the years 1996-2006 (some

series from these years are not accepted at all). It is better to take dollars issued after 2006 to better the most recent of the current year.
