

Chile: Volcanoes Ski Touring in Lonquimay, Sierra Nevada, Llaima, Villarica, Casablanca & Osorno

Firn ski tours along the Pan Americana

While autumn is arriving in Europe, spring is beginning in Chile with ideal touring conditions for ski tourers. The “Little South” or “Chilean Switzerland” with its crystal-clear lakes, deep primeval forests, but above all the more than 3,000 meter high volcanoes are our destination for this ski tour. For 14 days we enjoy fantastic firn descents, some of which are active volcanoes, as well as relaxation in natural hot springs.

Comfortable accommodation in beautifully located haciendas with South American steak and a good glass of Chilean red wine in the evening make the round trip a pleasure. What more do you want? Join us on a ski touring trip to one of the most beautiful corners of the world!

Therefore we are the right partner for this tour.

Day 2: Arrive in Santiago de Chile and continue to Temuco

In the morning we land in Santiago de Chile. With a domestic flight we continue to Temuco, which is almost 700 km to the south, directly in the "Little South". In the afternoon we land in the small provincial capital of the Mapuche Indians. In the east of the city we can already see the two ski tour destinations for the coming days. Villarrica at 2,840 m and the Llaima volcano at 3,125 m. We move into our accommodation for the next 3 nights, about 1.5 hours' drive away, on a wonderful hacienda between the Conguillío National Park and the Tolhuaca National Park, right next to the Malalcahuello Nature Reserve.

Day 3: Ski tour to the Lonquimay volcano (2,865 m)

After a Swiss breakfast that is known far beyond the national borders, we climb the easy, 2,865 m high volcano Lonquimay today. As if painted, the volcano in the north of the hacienda builds up. Surrounded by wide forest, the landscape changes as it ascends into wide ash fields and snow slopes that are fantastic to drive on. From the summit we can enjoy the two main craters of the volcano and, above all, the view of the fascinating landscape below us. With wide turns we enjoy the descent over the Chilean firn back to our vehicles. At the hacienda, the day ends comfortably with a glass of wine and good food. The tireless can also dare a ride on the in-house horses.

Day 4: Ski tour to the Sierra Nevada volcano (2,554 m)

The Sierra Nevada volcano lies to the south of the Hacienda and is the goal of today's ski tour. Through the well-known ARAUCO forests, we climb almost like a jungle up to wide firn slopes and make our way to the summit. Opposite, tomorrow's destination, the 3,125 m high Llaima volcano, enchants us with its shape. The view extends far into the Conguillion National Park with its deep blue lake of the same name. We drive back down to the hacienda via the ascent route.

Day 5: Ski tour to the Llaima volcano (3,125 m)

We start early today for a long but absolutely worthwhile ski tour to the highest peak of the Conguillion National Park. The approximately 2,000 m long ascent is crisp and leads over the glacier up to the constantly smoking summit. Sulfur vapor surrounds us at the edge of the crater, which leaves a lasting impression simply because of its size of more than 300 m. Over wide, ideally inclined slopes, the turns can be a little further at 1,500 m descent. Last night at the hacienda.

Day 6: On the Pan Americana to Pucon

Our ski touring journey continues south. On the Pan Americana we drive to Pucon, about 3.5 hours away. The city lies at the foot of the Villarrica volcano directly on the lake and is known for its beautiful, white sandy beaches. In recent years, the city with 8 ski facilities has developed into a true ski mecca in Chile. In the afternoon we explore the sights, take a boat trip on Lago Villarrica or bathe in one of the thermal springs. Overnight in a good hotel in town. In the evening we enjoy the good Chilean cuisine. The evening ends in one of the bars.

Day 7th - 8th: Rest day / skiing / ski tour Villarica (2,860 m)

The Villarica volcano last erupted in March 2015. Depending on the situation on site, we will try to climb the summit on the first day. Especially since you can look directly into the lava of the volcano from above. This should be an unforgettable moment in the life of a ski tourer. From the ski area we start up over steep 35° slopes to the crater rim. Ideal firm accompanies us on the ascent route back down to the ski area, accompanied by a view of the large, surrounding lake landscape. We use the second day as a rest day or for skiing on the slopes of Villarrica. Of course, a visit to the thermal baths is just as important as a cozy end to the evening. Overnight at hotel.

Day 9: Through the small south to Lago Puyehue

Along the southern shore of Lago Villarica we drive to Lago Calafque and now come to the region de los Rios. Lakes, forests and lonely landscapes form the backdrop for a varied journey through the little Switzerland of Chile. At Lago Panguipulli we head west again on the Pan Americana and reach Lago Puyehue. A visit to the thermal baths is worthwhile here. We stay in a small hotel and enjoy the fresh salmon that the region is known for.

From the summit we are rewarded with an impressive view of the surrounding volcanoes Osorno, Puntiagudo and Lake Rupanco. Depending on the course of the tour, we can stop again at hot springs on the way back and relax in the thermal water.

Day 11: To Puerto Octay to Osorno Volcano (2,652 m)

The ski tour journey continues to Puerto Octay, a town of 2,500 souls with German roots on the north coast of Lake Llangquihue. From here we have a more distant starting point for the Osorno, but the place was not as affected by the ash rain in March 2015 as Ensenada. We get accommodation in a cozy hotel for the ascent of Osorno, which is just under an hour away.

Day 12: Ski tour to the Osorno volcano (2,652 m)

The ski ascent of the 2,652 m high Osorno is certainly the crowning glory of this ski tour trip in Chile. We make the ascent easier by driving up to the ski area at 1,300 m. Nevertheless, the summit has it all. The danger of crevasses must be taken into account on the ascent and descent, the stage to the edge of the crater is long and steep. We are rewarded with a magnificent view of the neighboring Calbuco, the Casablanca and a long descent over the brilliant Chilean firn back to the vehicles. Dinner in Ensenada and overnight at our hotel in Puerto Octay.

Day 13: On the Pan Americana to Puerto Montt

With the off-road vehicles we continue to nearby Puerto Montt. The city is located on the Pacific Coast and is the terminus of the Pan Americana. Further south it borders Patagonia. With a bit of luck we can see all the peaks of the ski tour from here. In the morning there is still enough time to buy one or the other attraction at the markets. In the afternoon you fly back to Santiago de Chile. Onward flight to Germany in the evening.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the

information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?](#)

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps. If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[How far in advance should I start training and what kind of training do you suggest?](#)

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
