

Costa Rica: Bike Adventure in the national parks

Costa Rica enchants us with tropical flora, exotic animals and hospitable people. Hardly any other country offers such diverse landscapes in such a small area. The Cordillera chain with its lava-spitting volcanoes rises above the humid cloud forest. Wild water rivers, crystal-clear lakes and endless, beautiful sandy beaches lure you to take a refreshing dip. We discover bird paradises in the lowland dry forests and mangroves, encounter howler monkeys and, with a bit of luck, toucans and sloths. Of course, we don't miss out on biking: Most of the time we're on dirt roads and adventurous trails. The grand finale is the dream downhill from the Irazú volcano (3432 m) down to sea level! If you are looking for a nature experience from your bike,

[Day 2: Arenal Volcano](#)

We take the bus to Zarcero (1800 m). This area is also called «Switzerland of Costa Rica». This is where our bike adventure begins with a long shot ride. First we drive on an asphalt road, then on a red dirt natural road through wide green farmland. Back on the asphalt, the side road winds its way through a narrow, winding valley covered in jungle with many ups and downs. Depending on the time of day and the weather, the bus takes us the last few kilometers to Fortuna, to our spa hotel at the foot of the Arenal volcano (1633 m).

From the hotel we cycle along the foot of the volcano up to the Arenal reservoir. First we bike through meter-high reed grass and then through lush tropical forest on a natural trail that gets narrower and narrower along the shore and are amazed by the variety of fauna and flora. It is also important to cross one or the other river! In the afternoon the bus takes us via the "Cordillera de Tilaran" to the area of the impressive Monteverde National Park.

Day 4: Skywalk in the cloud forest of Monte Verde

Here, in the always humid cloud forest regions of Costa Rica, we find a uniquely rich flora. The Skywalk, a network of bridge paths set high in the jungle canopy, offers us many interesting insights into flora and fauna that are still intact. The canopy is even more adventurous - if you want, you can try out this optional adventure and zoom through the airy treetops on a steel cable.

Day 5: Single trails at the foot of the volcano

A long descent with wonderful views over rural Costa Rica and a subsequent bus ride on the famous highway, the Panamericana, bring us to the small town of Liberia in the north of the country. In the afternoon, a special treat awaits the technically experienced bikers. The single trails laid out in the tropical

forest at the foot of the Rincón de la Vieja volcano require calf strength and technical skills. For pleasure bikers, a mostly paved road leads up. Our accommodation usually has a pool for enjoyment without further biking. Here we spend two peaceful nights in nature, far away from civilisation.

Depending on your mood, we bathe in a waterfall or go on a leisurely optional Wild West ride on horseback.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security

reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
