

Costo Rica: Nature and Hiking Paradise

Costa Rica is a Central American country with a rugged geography, including tropical forests and coastlines on the Caribbean and Pacific. Although its capital, San José, is home to cultural institutions, such as the Pre-Columbian Gold Museum, Costa Rica is known for its beaches, volcanoes, and biodiversity. Approximately a quarter of its area corresponds to protected forests, full of fauna, such as the spider monkey and the quetzals.

Costa Rica, an incredible wealth of flora and fauna

- Arenal Volcano, Tenorio National Park, Rio Celeste, Rincón de la Vieja National Park
- Beach stay at the Pacific
- Hiking and experiencing nature - a paradise for nature and hiking enthusiasts

Costa Rica, the small country in Central America, offers an incredible wealth of flora and fauna. The government has been making great efforts to protect nature and preserve the original rainforest for many years. Start the journey by hiking in Poás National Park and then continue north to the tropical rainforest at Puerto Viejo. A fascinating spectacle is the activity of the Arenal Volcano. At the 'Fire Mountain', as the Arenal is also called, and at the volcano Cerro Chato you hike through dense rainforest, enjoy the beautiful view and the crystal clear water of the crater lake, discover the native plant and animal species and refresh yourself in a natural pool of the waterfall La Fortuna. The Rio Celeste, the sky-blue river, fascinates with its intense colors. In the Rincón de la Vieja National Park, the bubbling mud pools, geysers and stinking fumaroles offer an impressive insight into the forces of nature. Finally, enjoy the beaches of the Pacific Coast before heading back to the capital, San Jose.

This beautiful place on the slopes of the Tenorio Volcano is little visited despite being part of the Tenorio National Park. The Rio Celeste – which translates as ‘sky-blue river’ – owes its name to the light, almost turquoise and milky color that results from a natural chemical reaction at a point where two rivers flow together, which have completely different chemical properties and whose cause the color reaction. This place is called Dyer’s Square and is hidden in the middle of the dense rainforest. Then hike back to the park entrance and drive to Tenorio Lodge.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our

passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
