[Day 1: Mexico City](#)

Individual arrival in the Mexican capital, Mexico City. Greeted in the airport arrivals hall by our local representative who will transfer you to your hotel.

Mexico City not only inspires with a great cultural offer, but also fascinates with its interesting past. The Aztecs founded their capital Tenochtitlan just a few kilometers north of today’s center of Mexico Cities. Like the entire empire of the Aztecs, it grew quite quickly and so you can walk in the footsteps of the Aztecs in many places in today’s capital. The foundations of the Templo Mayor, for example, can still be seen today at the Zocalo in the heart of the city. The floating gardens of the Aztecs in the south of the city can still be visited today.

In the small colonial town, which mainly consists of colonial buildings painted yellow, visit the beautiful old Franciscan monastery. Afterwards visit Chichen Itza, one of the new seven wonders of the world and the most famous archaeological site of the Yucatan Peninsula. The 30 meter high step pyramid is Chichen Itza’s most famous photo motif and, according to many assumptions, served the Maya as an annual calendar.

Afterwards you can refresh yourself at the nearby Cenote Dzitnup and enjoy the cooling of the bright blue

water. A visit to Valladolid, the third largest city on the Yucatan Peninsula, is also worthwhile. Colourful, pastel-colored houses, well-preserved colonial buildings and romantic restaurants invite you to linger. Visit the Church of San Bernardino with the adjacent Convento de Sisal. It is the oldest church in Yucatan and used to be a fortress.

Depending on the departure time, drive to the airport in Cancun and drop off your rental car at the car rental company's office.

What is the best time of the year for this hike?

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our

passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
