

Ausangate Trek Adventure

The mountain chain of the Ausangate is situated in the Cordillera Vilcanota in the department of Cusco. It is one of the most remote high Andean zones of Peru and offers a spectacular trekking circuit along snow-capped peaks, lagoons, ice caverns, and thermal waters. Furthermore, it represents a thousand-year-old culture.

Ausangate trek is a high altitude 70km hike in Peruvian mountains near Cusco with an average altitude over 4000m. Unlike most other hikes in the region Ausangate is not about Inca ruins, it's all about beautiful scenery; snow peaks, glaciers, colorful mountain lakes and the Rainbow mountain.

Ausangate Trek - An overview: Lying a 100 km south-east of Cusco is the impressive cordillera Vilcanota. The mountain range has several peaks over 6,000 metres, including the sacred Ausangate (6372m) - the highest mountain in the Cusco region.

Unlike the Inca Trail, no permit is needed for the Ausangate trek. The trek is one of the quietest in the region and you'll likely not see another trekker.

Whilst most Ausangate treks are offered on a 6 day itinerary, certain companies will combine the trek with a visit to Machu Picchu. Camping is usually the norm on this route, however, some companies will offer the trek as a 'lodge' trek in which you will stay in very basic huts along the route.

The Ausangate trek is one of the few treks in Peru that offers the option to ride a horse. Operators will provide the horses and extra horses will also be brought to carry your gear and equipment.

However, certain sections of the trek are so steep that you'll need to get off and walk beside your horse. If you are not a confident rider then trekking only tours are also available.

The trek offers an array of wildlife including soaring condors, vicunas, bobcats and pumas. Camp sites are often beside beautiful blue lakes.

You'll also have the chance to bathe in several hot springs and view the trek's signature rainbow mountains! The colourful sandstone mountains in the Vinicunca area is probably the coolest thing you'll see in Peru!

Ausangate mountain itself is considered a holy mountain (or mountain spirit) by local Peruvians and is the deity of Cusco. Since pre-Inca times the mountain has been a place of worship and offerings and this tradition continues today.

The mountain is also notable for the Qoyllur Rit'i Festival which is held on the opposite side of the Cordillera Vilcanota, in the Sinaqara Valley at the end of May. The festival draws over 10,000 pilgrims each year and celebrates the mountains spirit and the apparition of Christ on the mountainside.

Machu Picchu Extension: Occasionally a tour operator will offer the Ausangate trek in conjunction with a visit to the ancient citadel of Machu Picchu. If you have a little more time on your hands and want to see the magnificent ruins then this a great option for trekkers. The itinerary is almost identical to the one above until you get to the final day when things change slightly. Instead of trekking from Pajchanta to Tinki, you trek from Pajchanta to Laguna Armacocha. See below for details.

How difficult is the Ausangate trek?: With several high passes over 5,000 metres, the Ausangate Trek is considered fairly difficult.

The trek is classified as grade C which means the trek is fairly long and many sections are at high altitude. You'll need a good level of fitness and stamina as you'll be trekking over many steep sections in which the altitude changes significantly over a short space of time.

The trail itself is fairly good and well defined. If you are using horse, you'll most likely be on horseback for much of the flat sections. Your operator should allow good time for acclimatization.

This trek is probably not suited to first time trekkers. If you are a strong walker and have completed some moderate treks prior to this then you should be fine. Often weather can get quite rough in the higher regions and blizzards are certainly not uncommon.

As there are several high sections on the trek you should make yourself aware of Acute Mountain Sickness (AMS) and how to diagnose and treat the sickness. The important thing is not to rush. If you have chosen a good operator they will take this into account.

Here is a really beautiful short video from Contemporary Nomad that shows the incredible landscapes of the Ausangate Trek.

Ausangate trek - Route itinerary: There are several route itinerary options for the Ausangate trek, including a 4 day, 5 day, 6 day and 7 day itinerary. The most popular is the 6 day itinerary which we have laid out below.

Best time to do the Ausangate trek: Like most trek in the region, the best time to do the Ausangate trek is in the dry months between May and September. Unlike other popular treks, the Ausangate trek is very quiet, even in peak season. In the shoulder months of April and October weather is still pleasant and the trek is very possible. However, because of its altitude you'll have to contend with freezing nights, even in the dry season. Because of the altitude and snow, the trek is best avoided in the wetter colder season between November and February. Temperatures during the day in the dry months are usually quite mild and visibility is very high. Because of the height you'll want to make sure you are wearing layers, especially for the colder nights. Please see our packing list below for suggestions.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would

already be private .
