

Tour to the Rainbow Mountain, Vinicunca

THE RAINBOW MOUNTAIN or better known by locals as: CERRO COLORADO CUSCO, located south of the city of Cusco – only in our region and one in Peru, shows us an impressive scenic beauty, is a geological formation through different minerals shows different hue of colors in this mountain.

Also called the Seven Colored Mountain, this area is little explored and poorly understood. This walk will please all discerning taste of nature by visitors, taking fond memories of unique panoramas of High Mountain, where we can also appreciate the camelids in their natural habitat.

The inhabitants of this area still maintain customs and traditions since time old. Making the Rainbow Mountain a very cultural site to learn a lot and go back to home with very pleasant memories.

Visit the Rainbow Mountain is really worth it and our company feels proud to offer such natural beauty to visitors.

More info about the tour: Vinicunca, also called “The Mountain of 7 Colors” or Rainbow Mountain Peru. It is a new tourist attraction near Cusco, Peru, located in the province of Quispicanchis. Forgotten by everyone until a few years ago, it has now become very popular. And the best part is that you can visit it in one day.

According to locals, this mountain and the surrounding ones were covered with snow a few decades ago, and because of global warming, the snow has disappeared leaving them exposed and showing us an incredible view, and not just the view of the mountains, but also the Apu Ausangate, Cusco’s highest snowy peak.

Some people also say that the coloration of this mountain is due to the large number and variety of minerals that can be found if any mining were to be done, something the locals are afraid of, because these mountains have not yet been declared protected and any mining company could take it in concession and destroy this beautiful wonder. Hopefully our government can protect it by declaring it as a reserve or something similar.

Until a few months ago, the route lacked basic health services. The community of Pitumarka, through their president, managed to install signage and essential health services. In order to maintain it, the villagers have decided to charge an entry fee which is currently 10 soles.

Seeing this, the community of Cusipata ran into trouble with Pitumarca regarding ownership of the mountain, as Cusipata says the mountain is in its jurisdiction and they should be the ones charging money. But anyway, that’s a matter that will have to be resolved between communities.

The disastrous idea that occurred to the villagers of Cusipata was writing the word “CUSIPATA” on the main mountain, which caused and continues to cause unease in tourists, travel agencies and people in general, as they have partly damaged the mountain.

Be that as it may, visiting this mountain at the moment is still a great choice if you are in Cusco; being there and connecting with nature is truly priceless.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more

experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
