Day 4: Huayllabamba - Warmi Wañuska (Dead Woman's Pass) - Paqaymayu

Today is the challenging day, but don't worry, we can do it my friends!!!
We will wake up at 6:00 am, with hot coca tea brought to your tents, to prepare for today's trek which is considered by many people, the hardest day of the Inca trail. You need complete a steep ascent reaching an altitude of 13779 feet above sea level (4200 masl) at Warmi Wañuska pass.

After the breakfast,we will depart from the campsite at around 07:00 hrs.to start with an uphill hike through Llulluchapampa and it will give us the opportunity to appreciate several species of birds (with luck

you may see hummingbirds falcons or some black-chested eagles). From here the trail traverses a beautiful cloud forest full of Polylepis or Queñua's trees before entering the Puna, a zone characterized by treeless grasslands only found at this altitude across the Andes. Walk at your own pace, to catch your breath or to stretch a muscle. The last hard climb takes us the right to the highest pass of the Inca trail at Warmi Wañuska.

Once at the top you will be rewarded with spectacular views of the Andes, surrounding snow-covered peaks. You will also feel a great sense of accomplishment after conquering the Dead Woman's pass. Finally we will continue hiking through the slopes on the left side of the valley all the way to our campsite in Paqaymayu at 11811 feet above sea level (3600 masl).

Day 5: Paqaymayu - Runkuraqay - Sayacmarca - Phuyupatamarca - Wiñayhuayna

Start the adventure after a heartwarming breakfast!!
Today's hike is exceptionally beautiful because we will pass the most important ruins along Inca Trail of Runkuraqay; Sayacmarca, Phuyupatamarca, Wiñayhuayna and enjoy dramatic views of the Aobamba Valley. Start with a steady ascent to the second highest pass at Runkuracay reaching 12400 feet above sea level (3780 masl) and passing through a circular in control point that occupies a commanding position overlooking the spectacular Vilcabamba mountain range below. Catch your breath and realize the rest of Inca trail is mostly downhill. Be careful with your knees as the descent from the pass to the ruins of Sayacmarca is very steep and you may feel the strain at the end of the day.

Interesting info: The name Sayacmarca means "inaccessible town" and describes the position of the site, perfectly perched on the rocks. The one of a kind Inca trail, now a monumental structure of granite stones, continues through ever-changing layers of cloud forest full of rare orchids, hanging mosses, bromeliads, and tree ferns.

On this day we will past through a Inca tunnel, and then will be waiting for us a gentle climb that will take us to the third pass at 12139 feet above sea level (3700 masl), offering incredible views of several snow-capped peaks including Salkantay (20574 ft./6271m) and Veronica (18865 ft./5750m). Close to the pass you will find the impressive ruins of Phuyupatamarca (Cloud-level Town). A brief explanation of the mysteries of Inca architecture, before continuing along splendid paved Inca road to the impressive agricultural site of Intipata and up to the third and last campsite at Wiñayhuayna (forever young) located at 8856 feet above sea level (2700 masl). Wiñayhuayna, named after a variety of pink orchid that grows here, is the last official campsite before Machu Picchu.

Day 6: Wiñaywayna - Intipunku - Machu Picchu

Today is our big day!!!
Our final day at Inca Trail will start waking up very early around 4:00 am!! why?? to get to the most amazing Inca Gate called Inti Punku (the Sun Gate), here we will see Machu Picchu in a unique way, enjoying the view of the first rays of the sun. That will be a hike of 1-2 hours, with significant upward stretches in the last half. You will be walking in darkness, so a headlight is strongly recommended. The trail is marked and takes about 1½ hours.

The trail contours a mountainside and drops into cloud forest before coming to an almost vertical flight of 50 steps leading up to the final pass at Intipunku (Sun Gate). Suddenly the whole of Machu Picchu.

A final short hike will bring us to the entrance and into the heart of the incas architecture: Machu Picchu!!! , where we will spend the rest of the morning with 2 hours guided tour and some more time exploring on your own. We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
