Expedition Nevados Urus (5495 m), Ishinca (5530 m) and Tocllaraju (6034 m)

About Quebrada Ishinca: Mountain views – Three Peruvian Peaks – Urus (5495m), Ishinca (5530m) and Tocllaraju (6034m). Climb of Ishinca, with a journey through the Ishinca Valley, is a popular destination for climbers who want to get to 5 or 6000 meter peak, but because of the scenic beauty, this is a great climb even if you don't reach the peak. On this hike we have a fascinating view of the massif that includes Ishinca, Urus, Tocllaraju, Ranrapalco, the Palcarajus and much more.

The Quebrada Ishinca Base camp: Besides a wide plan to put on your tent – offers indeed various possibilities to climb some interesting routes, as Urus Este Normal route, shorter than the Ishinca Normal one. Also the ascent of the neighbouring Urus Central and Urus Oeste shows low difficulties, but these latters are rarely climbed in favour of the very popular Urus Este.

The super-classic Tocllaraju NW ridge and the most difficult Ranrapalca Normal route belong to another climbing range and complete the possibilities.

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Suggested FAQs

What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with they.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: +51 943 081 066**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
