About Peru is a country in South America that encompasses a section of the Amazon forest and Machu Picchu, an ancient Inca city high in the Andes. The region around Machu Picchu, including the Sacred Valley, the Inca Trail and the colonial city of Cusco, is rich in archaeological sites. On Peru's arid Pacific coast lies Lima, the capital, with a preserved colonial center and important collections of pre-Columbian art. → [More info click here.](#)

About Cuzco is a city in the Peruvian Andes that was the capital of the Inca Empire and is known for its archaeological remains and Spanish colonial architecture. The Plaza de Armas is the center of the ancient city, with galleries, carved wooden balconies and ruins of Inca walls. The convent of Santo Domingo, in baroque style, was built on the Temple of the Inca Sun (Qoricancha) and has archaeological remains of Inca stonework. → [More info click here.](#)

Natura Vive: The adventurous Skylodge Adventure Suites is located in the Sacred Valley, and offers

a once-in-a-lifetime chance to sleep in a completely transparent, hanging bedroom capsule over a 1,000 feet above the valley floor. This unique experience allows you to appreciate the impressive views of the mystic Sacred Valley and the stars above. Not for the faint of heart, the Skylodge offers a thrill of adventure and a dream come true.

To sleep at Skylodge, you must first either climb a 1,312 feet to the top of Via Ferrata, or hike an intrepid trail through ziplines. The Skylodge is composed of three exclusive capsule Suites with a total capacity of 8 people. These vertically hanging transparent capsule suites are situated at the top of the mountain and offer 300 degree views of the Sacred Valley. Hand crafted out of aerospace aluminum and weather resistant polycarbonate, each suite comes complete with four beds, a dining area and a private bathroom.

Measuring 24 feet in length and 8 feet in height and width, the capsule suites are composed of six windows and four ventilation ducts that ensure a comfortable atmosphere. Safety is insured by having the exit portal located in the upper part of the craft. The design and features of each suite provides first class service and complete comfort. The capsules offer an alternative lighting system, which consists of four interior lamps and a reading light. Each suite has a private bathroom separated from the bedroom by an insulated wall. Inside is a dry ecological toilet and sink, where you can still enjoy the gorgeous views through the 6 feet diameter dome. The dome also has curtains for privacy from the curious gaze of passing condors (your sky neighbors). Fine quality mattresses, cotton sheets, down pillows, and quilts ensure a warm and pleasant night 1,312 feet from the ground.

Packages includes breakfast & gourmet dinner with wine, transportation from Cusco and professional bilingual guides.

Please note we offer this lodge only as part of a longer tour. We do not book the lodge as a stand-alone trip.

Note: Please book this tour well in advance because it is very limited. → [More info click here.](#)

Machu Picchu Historical Sanctuary: Machu Picchu is an Inca citadel located high in the Andes Mountains in Peru, above the valley of the Urubamba River. It was built in the 15th century and then abandoned, and is famous for its sophisticated dry stone walls that combine huge blocks without the use of a mortar, fascinating buildings that relate to astronomical alignments, and its panoramic views. Its exact use remains a mystery. → [More info click here.](#)

The Huayna Picchu mountain: Wayna Picchu in Quechua, (with an altitude of 2667 m a.s.l.) is part of the eastern foothills of the Salcantay massif, in Cuzco, Peru. It is part of a large orographic formation known as the Vilcabamba Batholith, in the Central Mountain Range of the Peruvian Andes and is known mainly for being the backdrop for most panoramic photographs of the Inca archaeological remains of Machu Picchu. However, it also houses important archaeological remains related to the famous Inca complex. → [More info click here.](#)

Rainbow Mountain Cusco - Peru: also known as Vinicunca, is the fastest-growing tourist attraction in Peru followed by Huacachina Desert Oasis. The mountain is made up of 14 different colorful minerals, and as recently as 2013, the mountain was not visible as it was permanently covered in snow. It should be noted that the only way to access Rainbow Mountain is if you are with an official tour company who have permission to access it. More info can find in our blog. → [More info click here.](#)

The ATV Tour to the Rainbow: Mountain is a new alternative offered by our agency, if hiking is not part of you but you want to get to the Vinicunca mountain, this is the best option to visit it with this ATV tour. Trekking Ausangate and Climbing Jampa (5500 m):

Overview

This is a beautiful trekking, with a circular circuit that takes you around the Nevado Ausangate massif and during the course we cross two steps above 5.000 m, this circuit is always above 4.300 m. The hike begins after our tour Rainbow Mountain/Vinicunca/Montaña Colores 5150 mmeter and ends in Pacchanta. The landscape of this mountain range is spectacular, with wildlife, large turquoise lakes, snowfalls and numerous alpaca herds. Experiencing this adventure is a unique opportunity in your life, a unique and memorable experience. We can connect with this trekking a climb to Jampa Mountain and can be climbed without having any experience in mountaineering. It requires a technical walk on the glacier that make up 40% of the route. The summit offers stunning views of part of the Vilcanota mountain range. A unique opportunity for the first experience at high altitudes.

NOTE: We recommend that you must have at least three full days in the city of Cusco to acclimate. → [More info click here.](#)

The Santa Catalina Monastery is one of the most famous religious tourist attractions in the city of Arequipa. It is located just 600 meters from the city's Plaza de Armas, in the Historic Center. The monastery was created during the colony. The founding date dates back to 1579. → [More info click here.](#)

Mirador Cruz del Condor is a stunning lookout located in the Colca Canyon at an elevation of 3270 MASL, located in the the Department of Arequipa, Caylloma province, in Peru.

This viewpoint is for many the highlight of their trip to the Cañón del Colca and has become a very popular spot for viewing the Colca Canyon and the majestic flight of the Andean Condor, the region's most representative bird as well as the largest flying bird in the world.

Other notable bird species present in the Colca include the giant hummingbird, the largest member of the hummingbird family. → [More info click here.](#)

Colca Canyon and Condors

The viewpoint offers great views of the canyon and this is the best place where you can see the andean condors flying over the Colca River.

The best time to see the flight of the Condor's is between 8AM to 10AM, depending on the weather conditions as during the rainy and cloudy days It won't be possible to watch the condors.

Cruz del Condor viewpoint is the most popular place for condor's watching. At this point the canyon floor is 1,200 meters below the rim of the canyon.

This place was originally called Chacllacruz yet is now known by the title of "Mirador Cruz del Condor" (Condor's Cross) for two reasons: one, for the flyovers performed in this area by this famous Andean bird, especially in the morning, and two, because of the stone cross built overtop a striking stone promontory.

Organized Bus tour to the Colca Canyon

Every day organized bus tours are leaving from Arequipa to Colca Canyon for visiting this spot.

Our tour is available in group and private service with an english speaking guide on board and includes the stop at Cruz del condor. → [More info click here.](#)

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would

already be private .
