

Mountainbike Extreme-Cordillera Huayhuash Yerupaja-Circuit

Mountain Biking in the Cordillera Huayhuash: Peru: Mountainbike Extreme-Cordillera Huayhuash Yerupaja-Circuit. One of the most spectacular tours on 2 wheels. This is an extreme mountain biking trips over the single-track of the Cordillera Huayhuash Cordillera and one of the most beautiful rides in the world. The rocky formations are impressive and rise elegantly to the sky. Here you'll find the second highest mountain in Peru: Yerupajá Grande (6,634 m.) Visitors will be able to see the snowcapped peaks, glaciers, blue lakes and impressive landscapes. During the trek, we'll cross 8 mountain passes, including the highest at 5,000 meters. The trail isn't very difficult to hike, but to ride on two wheels via the not-very-well-marked route is quite demanding. Some sections require that you carry or push your bike on a mule trail/single track that presents difficult steep or very rocky sections. Burros will carry your gear

Before heading out to our ultimate destination, we'll have 5 days of acclimatization rides in the Cordillera Blanca and Cordillera Negra. The Cordillera Blanca in the heart of Peru is ideal for hiking, mountain biking, trekking, climbing and mountaineering.

Highlights of the Cordillera Blanca. The highest tropical mountain range in the world, the Cordillera Blanca is part of the spectacular Andes that form the spine of South America. A mecca for hikers and outdoor enthusiasts, the region boasts over 50 peaks that exceed 15,000 feet, 700 glaciers and 300 lakes.

From the pass we enjoy a beautiful view of the mountains to the east and west and the peaks of Uruashraju (5,722 m), Huanstán (6,395 m) and Yanamarey (5,237 m.) Climb from Matacancha to Cacanampunta Pass (4,700 m). We carry our bikes for almost all of this section, 3-4 hours, because the trail is very uneven and rocky. At Cacanapunta Pass we have spectacular open views of the wild mountains of Huayhuash. We descend over beautiful wide pastures to Laguna Mitococha (4,300 m) and continue with an easy climb over Punta Carhuac Pass (4,650 m) and descend over gentle undulating grasslands to Laguna Carhuacocha (4,200 m), one of the best campsites on our route. If there is no wind, we'll see the peaks of rock and ice reflected on the surface of the calm waters. At the lake live indigenous farmers - with their permission we may get to catch fresh trout for dinner!

[Day 8: Laguna Carhuacocha - Trekking/Biking Siula Pass \(4950 m\) / Laguna Quesillococha -](#)

[Huayhuash Camp \(4450 m\)](#)

This part of the route is strenuous and has no obvious road. It passes through remote peaks and glaciers of Huayhuash, with the most magnificent panoramic view of the excursion. We pass Lake Carhuacocha and beyond that is the ice fall and retreating glacier of Sarapo Peak (6127m). We cross Siula Pass (4,950 m) with overwhelming panoramic views. Almost all of this part of the trek we carry our bikes on our shoulders, making for a very strenuous and difficult day. We can very carefully ride some sections of the descent into camp at Quiesillococha Lake (4,450 m).

Alternative: If you prefer an easier day, there is a route that is a little longer but less demanding and less steep: flat along the east edge of Lake Carhuacocha, climb through the Quebrada Acoshpado to the summit of Carnicero Point (4,580 m) and a smooth descent to the two lakes of Atocshaiko to Carnicero Camp or Camp Huayhuash at Quesillococha Lake (4.450 m).

Today is the highest pass of the Huayhuash Trek – Cuyoc Point (5,020 m). From the lake of Puscanturpa Gorge, we scramble over rocks and sand to the pass. The spectacular view is of the Raura Range to the east. The Puscanturpa Peaks loom very close and “giants” of Huayhuash, Sarapo, Siula and Yerupajá. We drop sharply to Huanacpatay Gorge (4,350 m) and continue along the river to the Calinca Valley (Rio Huayllapa) and continue to the village of Huayllapa (3,600 m). In the relatively low elevation, the trail takes us through dense vegetation with many colors of flowers – especially the shrubs called huishllac, named for their yellow color and open purple flowers, the sacred flower of the Incas. Rapid changes in the weather (with snowfall!) happen every time we are here. From the pass we go down past a mountain cow pasture to the picturesque indigenous village of Pocpa (3,600 m.) Countless cacti, quite unusual for this region, suggest that high temperatures are not uncommon here. We see colorful flowers along the entire way. Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Will I need to bring any technical equipment of my own? Is it possible to rent equipment, and if so, what would be the approximate cost of that?](#)

In all our trekking or mountaineering trips we do not include personal equipment in our prices, so you have to have your own equipment: Personal equipment (such as boots, ice ax, crampons, harness, sleeping bag, mat, Goretex, etc.) and also within each page of the trips that we sell is a small list so you can see it on our website.

Our company can also rent the materials that you would need for your trip, see the list here on our website: <https://peru-expeditions.org/equipment-rental/> . **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Are there any other special requirements such as permits/insurance/vaccines that I need to consider before the tour?](#)

[What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?](#)

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps. If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](#)**

[How far in advance should I start training and what kind of training do you suggest?](#)

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](#)**

[What is the average distance and altitude gain that we will hike each day?](#)

Every day we have active walks around approximately 4, to 5 sometimes 6 hours of walking, everything is according to your pace and physical condition of each person, in each of our travel programs you will find more detailed information, and if you need more information about each day of the travel program, we can schedule a call via WhatsApp to clarify your doubts or questions, for this please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Will there be porters to help to carry group and personal equipment?](#)

In our trips, either hiking or mountaineering: Depending on the type or destination of the trip that you are going to book, in some parts of the treks you go with mules or donkeys or sometimes with horses, and within the mountain trips, the approach camps are also. They go with mules or donkeys, but there are some stretches where pack animals can no longer reach. In this part, our logistics is fully supported by the porters.

Who are the porters? They are people from the area who were born and live in the heights of the towns, they are very strong and are very acclimatized, the reason is that after the tourist season ends they dedicate themselves to agriculture and livestock for that reason they are people. They are used to the altitude and have lived in nature all their lives and they are happy to be in the mountains together with our expeditions. **For calls or inquiries to this number: [+51 943 081 066](#)**

[How will accommodation and meals be handled during the trek?](#)

About accommodation or meals during the tour: Well, depending on the type of tour, when the tour

Do I have what it takes to succeed on this expedition?

In the interest of the team's enjoyment and success, we work with every single guest to ensure they are properly prepared and ready for this expedition. We pride ourselves on vetting every member to make sure that the team can bond and succeed together. It really sucks to be grouped with members that are much faster, or much slower, than you are. No one wants to be the weakest link on a trip like this. By setting expectations and a solid training plan, we work to insure maximum cohesive success. Use this trip as an exercise motivator, and we will succeed together with style.

How can I get to the trailhead/meeting point?

For the pick-ups of each trip, depending on the place or the trip that you are going to make with us, the meeting point is always at our office, in one of our trips we pick you up where you are staying or staying, or in some cases a A representative of our company will pick you up and then ship you to your transport to continue with your destination of the tour or trip you have booked with us. If you wish to request more information, do not hesitate to contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What is the best time of the year for this hike?](#)

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
