This tour includes 1 night of jungle camping at "Mirador Palo Alto", a 3 story observation tower that provides a bird's-eye view of the lowland jungle. During our Iquitos Peru jungle tour travelers will experience our most popular activities including: night time caiman excursion, visits to lagoons, bird watching excursion, piranha fishing, rainforest hiking, visit with native Amazonian tribes, canoe rides, viewing of pink river dolphins and much more!

Iquitos City, is the capital city of the Maynas Province and Loreto Region. The largest metropolis in the Peruvian Amazon, it is the sixth most populous city of Peru. It is known as the "capital of the Peruvian Amazon." The city is located in the Great Plains of the Amazon Basin, surrounded by the Amazon, Nanay and Itaya rivers. Overall, it constitutes Metropolitan Iquitos, a conurbation of 471.993 inhabitants consisting of four districts: Iquitos, Punchana, Belén, and San Juan Bautista. The area was long inhabited by indigenous peoples. The founding date of the European city is uncertain. Spanish historical documents state that it was set up around 1757 as a Spanish Jesuit reduction by the banks of the Nanay River. It was named "San Pablo de Napeanos", and the Jesuits gathered local Napeano (Yameo) and Iquito natives to live here.

In the late 19th century, the city became the center of export of rubber production from the Amazon Basin and was the headquarters of the Peruvian Amazon Company. The rubber boom attracted thousands of European traders and workers who amassed wealth with the production and processing of rubber. The city was highly dependent on PAC, controlled in the nation by Peruvian businessman Juan Luis Arana. The operations of his forces in the Basin, who kept indigenous workers in near slavery conditions through use of force and harsh treatment, was investigated by Roger Casement, the British consul-general in Peru. He had investigated conditions in the Belgian Congo when under King Leopold's control. His 1913 exposure of abuses of Peruvian workers caused a reaction against the company among the several British members of its board and many stockholders. In addition, rubber was introduced to plantations in Southeast Asia, creating competition that undercut the Peruvian product. With the decline of the rubber industry, many workers and merchants left Iquitos.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[**What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?**](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our

passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .

About a Satellite Phone or inReach® Messenger - GARMIN: On each trip we recommend having a satellite phone at your disposal. The possibility of quick contact from anywhere on the mountain will guarantee your safety on the road.
