

Paracas, Ica, Nazca, Arequipa, Puno & Cusco

About Paracas: Paracas is a city on the west coast of Peru. It is known for its beaches, such as El Chaco, located in the sheltered bay of Paracas. The city is a starting point to the uninhabited Ballestas Islands, home to sea lions, pelicans and Humboldt penguins. The rugged Paracas National Reserve has abundant wildlife and extends through desert, ocean, islands and the Paracas peninsula. The huge prehistoric geoglyph of the Paracas Candelabra on the peninsula is engraved on the side of a hill.

About Ica: Ica is a city in south central Peru, capital of the Department of Ica, located in the narrow valley that forms the Ica River, between the Grand Tablazo de Ica and the western slopes of the Andes.

About Nazca: Nazca is a Peruvian city located in the center-south region of Peru, capital of the homonymous province of Nazca, located on the right bank of the Aja River, a tributary of the Rio Grande. Located 439 km south of the city of Lima, in a narrow valley at 520 masl.

About Arequipa: Arequipa is the capital of the colonial era of the Arequipa region of Peru. It is surrounded by 3 volcanoes and has baroque buildings built of sillar, a white volcanic stone. In its historical center, there is the Plaza de Armas, an imposing main square, and to the north of it is the Neoclassical Cathedral Basilica of the 17th century, which houses a museum exhibiting works of art and religious objects.

About Puno: Puno is a city in southern Peru located next to Lake Titicaca, one of the largest lakes in South America and the highest navigable body of water in the world. The city is a regional commercial hub and is also considered the “folkloric capital” of Peru, for its traditional festivals with lively music and dance performances. Iconic sites include the Puno Cathedral, an Andean Baroque style construction, and the 19th-century Yavarí steam ship.

About Cusco: Cuzco is a city in the Peruvian Andes that was the capital of the Inca Empire and is known for its archaeological remains and Spanish colonial architecture. The Plaza de Armas is the center of the old city, with galleries, carved wooden balconies and ruins of Inca walls. The convent of Santo Domingo, of baroque style, was built on the Temple of the Inca Sun (Qoricancha) and has archaeological remains of Inca stonework.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps. If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

How far in advance should I start training and what kind of training do you suggest?

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

some stretches where pack animals can no longer reach. In this part, our logistics is fully supported by the porters.

Who are the porters? They are people from the area who were born and live in the heights of the towns, they are very strong and are very acclimatized, the reason is that after the tourist season ends they dedicate themselves to agriculture and livestock for that reason they are people They are used to the altitude and have lived in nature all their lives and they are happy to be in the mountains together with our expeditions. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would

already be private .
