From Coropuna Six Thousand – To Playas de Camaná lebel Zero

The Nevado Coropuna is a special mountain in many ways. The fact that the ummit is only about 110 km as the crow flies from the Pacific coast makes it the only ummit in the world where this ummit can be carried out: We want to stand at the ummit of Coropuna at sunrise at 6,425 m and start our descent on skis, walking from the end of the snow to the Go to base camp and from there cycle to the Pacific coast. We want to reach the Pacific coast before sunset, a umm 12 hours after we started on skis

In 2018, four of us (Aldo Guerrero, Stefan Fritsche, Renzo Zubia and Aritza Monasterio) set out with the same goal. The start was perfect: we stood at the ummit of Coropuna at sunrise, but we had to struggle with several problems as we continued. After a delayed departure with the bikes, a few flat tires, a breakdown in the support vehicle, a lack of food and an unfortunately chosen route, we only arrived on the Pacific coast in Ocoña after 19.5 hours.

The descent from the ummit to the coast was successful, but we weren't completely satisfied. The thought that with perfect preparation and a bit of luck it could be possible to be 7 hours faster was something we couldn't get out of our heads.

For this reason, we are setting off again in 2023. We have the same goal, plus the experiences from 2018, are well prepared and are starting – of course – with a ummit motivation and energy.

MOUNTAIN: At 6,425 m, Nevado Coropuna is the third highest mountain and the highest volcano in Peru. It is located in the extremely dry south of the country and its glaciers are the largest freshwater reservoirs in the ummit. Around 44 km² are covered by ice, making the Coropuna glaciers the largest tropical ice umm in the world. The mountain range consists of six peaks over 6,000 m high, with the highest point most easily climbed from a base camp in the southwest.

A gravel road here goes up to 5,250 m, making this camp the perfect starting point for our ummit.

ROUTE: After the night-time climb, we start at sunrise at the ummit at 6,425 m. First we ski down to around 5,400 m. From the end of the snow to the base camp it is only a few hundred ummit on foot.

From there the 200 km long descent by bike begins. The road to the Pacific coast is very varied. At first you drive almost constantly downhill on gravel and asphalt. The second part will be much more strenuous. There is only 600 meters of elevation left to lose over about 100 km, and that over long stretches on gravel roads and with numerous counter climbs. At Camaná the ummi of the Río Camaná flows into the Pacific and marks the end of our path.

GOAL: We want to overcome the 6,425 meter difference in altitude between the ummit of the Nevado Coropuna and the Pacific coast using pure muscle power. And that between sunrise and sunset.

The glaciers of the Nevado Coropuna are the largest ummi reservoirs in the Arequipa ummit, and the increasingly rapid melting of the ice threatens the lives of people, animals and plants in the provinces of

Condesuyos and Castilla.

With our ummit we would like to draw attention to climate change, the consequences of which are more devastating in this umm with ummit precipitation um here in Central Europe. In the last 40 years, the umm of the glaciers on the Coropuna has decreased by more um half; the effects on life in this sensitive ecosystem have been visible for a long time and will be felt more and more clearly in the coming years.

MEDIA: We ummit on our trip via social media and in our blog. We use ummi and film footage to document the descent from the ummit to the Pacific coast and also the acclimatization and exploration ummit on the mountain.

With reports in print and online media, we also reach a broad audience in German-speaking countries.

Our existing film “6425²ZERO” is to be expanded; Aldo and I will ummit on our experiences in multimedia shows.

PERIOD: We will set off from Arequipa at the beginning of May 2023. We are on the mountain for about ten days. By climbing several peaks and skiing down the slopes, some of which are very steep, we can acclimatize perfectly for the final ascent and descent.

May 11, 2023 is supposed to be our big day, which we hope to end with a glass of Pisco Sour on the coast in front of Camana at sunset.

TEAM

Aldo Guerrero | Certified mountain guide (UIAGM)

Aldo was born in Huaraz, Peru and lives in Germany most of the year. The international mountain guide also commutes between the Andes and the Alps for work, unless he goes on expeditions in the Himalayas or other parts of the world.

With this project, Aldo wants to draw attention to how important glaciers, threatened by climate change, are for many areas in the west of the South American continent.

Stefan Fritsche | Certified mountain guide (UIAGM) cameraman, professional photographer

Stefan works as a mountain guide and expedition leader in the Alps and the high mountains of the world. International productions and his own projects took him as a cameraman to the remote mountains of the Himalayas, the Karakoram and the Andes.

Among other things, he filmed for BBC and ServusTV on the summit ridges of Mount Everest.

We recommend 2 ice screws for each client

1 Daisy Chain (Life Line) per each person

2 Ice axes (per person) technical, we recommended GRIVEL company

1 ATC descender (Rappel), this is very necessary for technical mountains

2 Cords for prusik, very important (Size Cord 6 mm x 10 m. long)

Gloves(Good gloves) for expeditions over 6000meters

Harness for climbing

Sleeping pad / Mattress, we recommend with air or inflatable mattress

Crampons, we recommended GRIVEL company

Walking sticks – Trekking Poles (optional), a pair per person, we recommended GRIVEL company

Down Jacket for expedition

Very important to have personal clothing such as pants and jacket with GOROTEX certification

First aid kit, for high mountains, because we as guides cannot medicate clients

Backpack Capacity 60 liters, it is better to have a bigger backpack to go comfortably to the high camps, because here you have to carry all your personal things

Gaiters or Leggings, now modern boots already have built-in (Incorporated), but better to have an extra pair

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don’t need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with they.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: +51 943 081 066**

Will I need to bring any technical equipment of my own? Is it possible to rent equipment, and if so, what would be the approximate cost of that?

In all our trekking or mountaineering trips we do not include personal equipment in our prices, so you have to have your own equipment: Personal equipment (such as boots, ice ax, crampons, harness, sleeping bag, mat, Goretex, etc.) and also within each page of the trips that we sell is a small list so you can see it on our website.

Our company can also rent the materials that you would need for your trip, see the list here on our website: https://peru-expeditions.org/equipment-rental/ . **For calls or inquiries to this number: +51 943 081 066**

Are there any other special requirements such as permits/insurance/vaccines that I need to consider before the tour?

Safe and effective vaccines are available that provide strong protection against serious illness, hospitalization and death from COVID-19. Billions of people have been vaccinated against COVID-19. Getting vaccinated is one of the most important things you can do to protect yourself against COVID-19, help end the pandemic and stop new variants emerging.

We also recommend having accident insurance, we always recommend. We are **Partners –Global Rescue.** If you have any other questions about the trip we can schedule a date for a calling via WhatsApp. **For calls or inquiries to this number: +51 943 081 066**

What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: +51 943 081 066**

How far in advance should I start training and what kind of training do you suggest?

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: +51 943 081 066**

What is the average distance and altitude gain that we will hike each day?

Every day we have active walks around approximately 4, to 5 sometimes 6 hours of walking, everything is according to your pace and physical condition of each person, in each of our travel programs you will find more detailed information, and if If you need more information about each day of the travel program, we can schedule a call via WhatsApp to clarify your doubts or questions, for this please contact us. **For calls or inquiries to this number: +51 943 081 066**

Will there be porters to help to carry group and personal equipment?

In our trips, either hiking or mountaineering: Depending on the type or destination of the trip that you are going to book, in some parts of the treks you go with mules or donkeys or sometimes with horses, and within the mountain trips, the approach camps are also They go with mules or donkeys, but there are some stretches where pack animals can no longer reach. In this part, our logistics is fully supported by the porters.

Who are the porters? They are people from the area who were born and live in the heights of the towns, they are very strong and are very acclimatized, the reason is that after the tourist season ends they dedicate themselves to agriculture and livestock for that reason they are people They are used to the altitude and have lived in nature all their lives and they are happy to be in the mountains together with our expeditions. **For calls or inquiries to this number: +51 943 081 066**

How will accommodation and meals be handled during the trek?

About accommodation or meals during the tour: Well, depending on the type of tour, when the tour is a classic cultural tour or a city tour, we eat during the route in tourist restaurants and sleep in category hotels that the client has requested.

If the tour is with camps and trekking: During the activity, logistics we include the service of Breakfast, Lunch, and Dinner with traditional and typical meals of the region where you are going to travel with us, during the night we stay in tents, and we have a special tent for the kitchen and another for the dining room.

If the trip is at altitude or in the mountains: We bring special high mountain food, It are quicker meals to cook and we provide complete logistics such as Breakfast, Lunch and Dinner, and we sleep in special 4-season high mountain tents, with the best tents. If you have any questions or concerns, we can schedule an appointment via Whatsapp to clarify all your doubts and give you better information so that your trip is an unforgettable tour.

What is the guide-to-client ratio to climb this mountain?

In mountains above 5000 meters: A local guide takes a maximum of 3 clients = Ratio 3pax = 1 local

guide

In technical mountains: In large-big mountains we manage the travel policy, a guide and a maximum of 2 clients = Ratio 3pax = 1 local guide. **For calls or inquiries to this number: +51 943 081 066**

What is the best time of the year to climb this mountain?

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: +51 943 081 066**

Do I have what it takes to succeed on this expedition?

In the interest of the team's enjoyment and success, we work with every single guest to ensure they are properly prepared and ready for this expedition. We pride ourselves on vetting every member to make sure that the team can bond and succeed together. It really sucks to be grouped with members that are much faster, or much slower, than you are. No one wants to the weakest link on a trip like this. By setting expectations and a solid training plan, we work to insure maximum cohesive success. Use this trip as an exercise motivator, and we will succeed together with style.

How can I get to the trailhead/meeting point?

For the pick-ups of each trip, depending on the place or the trip that you are going to make with us, the meeting point is always at our office, in one of our trips we pick you up where you are staying or staying, or in some cases a A representative of our company will pick you up and then ship you to your transport to continue with your destination of the tour or trip you have booked with us. What is the best time of the year for this hike?

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. If you have any other questions you can contact us by WhatsApp with one of our travel experts. Thank you so much. **For calls or inquiries to this number: +51 943 081 066**

What happens in the event of bad weather?

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even is good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our

passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: +51 943 081 066**

Can I join a group?

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .

Additional information

We help in the purchase of air tickets: we set up convenient flight options with each participant of the trip and book tickets such as international flights and domestic flights in each destination city of the countries that we offer our trips. We recommend you booking international flights tickets well in advance so we can find current flights offer prices from the airlines. In order for us to search for and book your flight, please contact us and we will be happy to help you!. → **More information click here**
About a Satellite Phone or inReach® Messenger - GARMIN: On each trip we recommend having a satellite phone at your disposal. The possibility of quick contact from anywhere on the mountain will guarantee your safety on the road. In case of need (for example, contact with the family or the travel company), for this service the participants have to request to rent a satellite phone, of course this service has an additional cost, contact us or ask our office for more information. A practical device is to have an inReach® Messenger - GARMIN also helps for any emergency. → **More information click here**
Many of the participants or clients of our adventures, hikes and expeditions in the mountains are people who sign up alone, but in some of our trips you will be able to find a travel partner companion to join a group. We have many options for you from day tours, short treks, long duration tours, and even the most extreme climbing high mountains on each country or South American continent and other destinations, as like the destinations you can see on our website. The mountains are a great place for rapid integration and a very healthy sport. → **More information click here**
Our mountain guides or tour leaders: All of our Tour Leaders are multiple conquerors of the peaks they lead the expeditions to. Each of our cultural guides, high mountain guides, mountainbike guides, among others are internationally recognized and certified guides, such as the certifications of **(UIMLA)** Union of International Mountain Leader Associations & **(IFMGA)** International Federation of Mountain Guides Associations. The mountaineering experience, skills and knowledge of your guides are a priority for us. → **More information click here**
