

Trekking Cedros Alpamayo & Huascarán + Climbing Nevado Vallunaraju (5686 m)

Highlights of the Cordillera Blanca. The highest tropical mountain range in the world, the Cordillera Blanca is part of the spectacular Andes that form the spine of South America. A mecca for hikers and outdoor enthusiasts, the region boasts over 50 peaks that exceed 15,000 feet, 700 glaciers and 300 lakes.

Trekking the Trans Cordillera Blanca: The Cordillera Blanca (White Range) is the largest and most popular mountain range in Peru, with 31 peaks more than 6,000 meters high, and more than half of the 6000 meter peaks in all of Peru. Here you'll find the highest and most beautiful mountain in the tropics – snowcapped Huascarán (6,768 m) – as well as the popular and spectacular Alpamayo (5,947 m) – the stand outs in a region of superlatives!

This trekking circuit, which winds around the peaks of Huascarán and Alpamayo, is a dream destination for avid high mountain trekkers. It's a formidable trek due to the altitude and the many passes along the way. This excursion is nine days of fascinating landscapes, including turquoise mountain lakes, high passes between extraordinary ice capped peaks, and endemic plants interspersed with high plateaus.

About Nevado Vallunaraju: The high peak of North Vallunaraju, at 5,686 meters, is close enough to Huaraz to do a summit trek in two days via a moderate climb. Setting out for this peak, you can see other peaks of the northern part of the Cordillera Blanca, including Oxshapalca (5,881 m) and Ranrapalca (6,262 m.) From the summit of Vallunaraju there is a beautiful view of the city of Huaraz and the Callejón de Huaylas (the central area of the valley between the Cordilleras Blanca and Negra.) Between North and South Villunaraju, there are 5 routes via different walls. The first ascent was to the North peak in 1949 via what has come to be called the “normal route”, which is what this trek follows as well. It's also a good place to practice ski mountaineering.

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more

experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

If you wish to request more information, do not hesitate to contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[What is the best time of the year for this hike?](#)

For all the trips that we offer within our main tourist destinations such as South America and Central America, also including the ascent of the 7 continents and the 7 highest peaks of each continent, on each page of our website for each trip we indicate that month or what season to travel, then please read the information you find in our travel offers for each tour. [What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](#)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
